

Thin Tube and BTE Fitting Solutions

Custom & Stock

Selecting the best interface for your BTE fittings is critical for success. With the exception of Power Plus BTEs, all of our BTEs can be fit with a standard earhook or with a thin tube. Once you have determined earhook or thin tube, we offer an array of fitting solutions both custom and stock to personalize each fitting.

Custom Thin Tube Solutions

Visit our **eStore** to order or use the Earmold Order Form. You can also order through Inspire Earmold Ordering.

Fitting Reference Guide

Custom & Stock

The following chart provides an at-a-glance starting point for selecting either a custom thin tube, standard earmold or a stock thin tube fitting solution based on the patient's audiogram.

Additional custom thin tube and BTE earmold styles are available, visit our professional websites for a complete listing.
